Creating Economic Opportunities

BOLSTER ECONOMIC DEVELOPMENT IN JUNEAU

Support the Juneau Economic Development Council in fostering a healthy and sustainable economic climate in Juneau and throughout Southeast Alaska. Your contribution will help us to:

- strengthen Juneau's economy
- develop a regionally competitive economy
- bring innovative economic development approaches to our region and state
- increase Juneau's desirability as a place to live and work
- research and share the *2009 Economic Indicators*

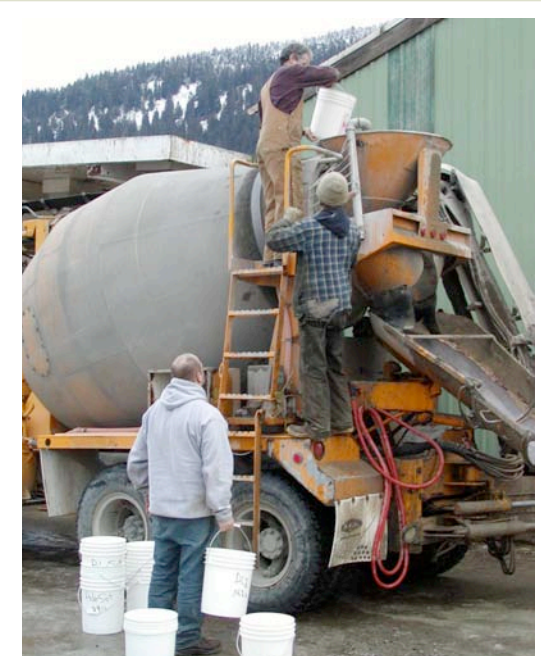

The **Juneau Economic Development Council's** mission is to maintain, expand, and create economic opportunities in our community, as well as our region. Your pledge of assistance will help us to continue to meet that goal as we enter into our twenty-second year of operation.

As a thank you, your business will be highlighted in our *2009 Juneau and Southeast Alaska Economic Indicators* publication and on our website. **JEDC** has been compiling, analyzing, and presenting Juneau's economic indicators for more than 20 years, and has recently begun incorporating regional indicators.

Indicators include employment and wage data, population trends, student statistics such as enrollment, cost of living information, business sales, passenger traffic, housing and construction data, and includes profiles of key regional industries, including tourism, mining, seafood, and timber.

The indicators will be produced annually, with semi-annual updates and are widely used by businesses and lawmakers.

JEDC is grateful to its supporters for their generous contributions and grants, which enable us to pursue a dynamic agenda, focused on today's most significant economic and social issues. Help us in our efforts to keep our economy strong and vibrant.

In 2008 JEDC was the recipient of the National Association of Development Organization's Innovation Award for demonstrating applicability of cold weather concrete.
